INCREASE FLEET EFFICIENCY

Your trailers aren't making you money while they aren't moving.

With Velocity Drive, we will have you landing legs raised or lowered in under a minute. Ensuring that your trailer spends less time static, more time moving and earning you money.

MILITARY GRADE COMPONENTS

**Rated to IP66!
Great in any weather!
Plus or minus degrees!**

Velocity Drive has been rigorously tested to ensure the highest standards of durability. Maintaining working condition in even the harshest of environments.

REDUCE DRIVER INJURIES

A safe work environment is a productive work environment

Velocity Drive all but eliminates the potential for driver injuries that occur as a result of manually cranking a trailers landing legs.

REMOTE CONTROL OPERATION

Never leave your cab! With wireless control operation!

Our innovative remote control device, allows you to raise and lower your landing legs wirelessly from inside the drivers cab.

INCREASE DRIVER RECRUITMENT

Provide your staff with a safe and comfortable working environment

Eliminate the potential for workplace injury. No manual cranking, means no risk of rsi and eases your workload. A happy driver is a productive driver.

MADE IN BRITAIN

We pride ourselves on keeping our manufacturing at home!

Hand assembled by our team of expert engineers in our workshop in Wales, each unit is tested and certified on our premises.

SIMPLE CONTROL. RELIABLE RESULTS.
